

Hinged Lid Containers

Fiber Blend

Social responsibility, respect and care for the environment require action in today's world, while keeping an eye on the future. Our Fiber Blend Hinged Lid Containers meet ASTM D 6868 standards specifications for compostability. These products are made from sustainable, renewable materials.

Fiber (paper) material

- Made from a blend of fiber and pulp materials

Sustainable Forestry Initiative (SFI) raw materials

- Made from sustainable, renewable resources

Double tabe lock hinged lids

- Keeps container securely closed

Stackability

- Helps multiple orders stack easily

Soak through resistant design

- Resists greas, moisture and helps eliminate messy leaks

Fully compostable in municipal & industrial compost facilities where available

- ASTM D 6868 certified and compostable in commercial facilities only, which may not exist in all areas. Not suitable for backyard composting.

These guidelines are supplied to assist you in determining the proper use of Pactiv products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier's recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.

*PCR stands for post-consumer recycled material, which is material reclaimed and recovered after consumer use.

Reduce

We strive to minimize packaging, petroleum based materials and energy use across the supply chain.

Reuse

We are committed to using post-consumer recycled materials, where available to produce new products.

Recycle

We are actively engaged in projects to increase the recycling of all foodservice packaging into new manufactured products.

Renew

We utilize renewable and compostable resources.
