

ClearView™ MealMaster™ Tamper Evident Medium Chicken Roaster

PACTIV
Foodservice / Food Packaging

Tamper evident seal attaches securely to the dome.

Tamper Evident seal must be torn down in order to remove the dome from the base.

Stacking feature enhances display and simplifies transportation of multiple orders.

Pactiv's ClearView™ MealMaster™ Medium Tamper Evident Chicken Roaster with co-extruded Fog Gard™ gives you all the features you've come to expect and a great deal more – venting, and a new Tamper Evident Closure System that prevents leakage and enhances overall food safety.

The sturdy polypropylene ribbed dome is microwaveable and stands up to the pressure of being stacked three-high, while two SmartVent™ outlets allow the release of internal steam. The microwaveable base is also made of polypropylene and features a ribbed floor that raises food above the grease and excess liquid. With the increasing concerns over food safety, the new Tamper Evident ClearView™ MealMaster™ Medium Chicken Roaster will provide you with the peace of mind that you and your customers have come to expect from Pactiv.

Features	Benefits
Tamper Evident Closure	Offers security and prevents tampering.
Fog Gard™ Anti-fog Dome	Anti-Fog co-extruded into the lid enhances merchandisability in and out of a hot case
Increased Venting	Two SmartVent™ outlets provide improved ability to exhaust steam.
Stackability	Can stack up to three-high for efficient space utilization.
Ribbed Dome Design	Sidewall construction offers superior strength and crush resistance. Flat sidewalls provide surface area for labeling.
Microwaveable Base and Dome	Enables customers to reheat one time in microwave oven.
Ribbed base floor	Raises food above grease and excess liquid.

PP (0°F/-18°C - 250°F/121°C)

These guidelines are supplied to assist you in determining the proper use of Pactiv products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier's recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.

Product Specifications
