Hinged Lid Containers
Fiber Blend

Social responsibility, respect and care for the environment require action in today’s world, while keeping an eye on the future. These products are made from sustainable, annually renewable materials that are environmentally friendly.

Fiber (paper) material
- Made from a blend of fiber and pulp materials

Sustainable Forestry Initiative (SFI) raw materials
- Made from sustainable, renewable resources

Double tab lock hinged lids
- Keeps container securely closed

Stackability
- Helps multiple orders stack easily

Soak through resistant design
- Resists grease, moisture and helps eliminate messy leaks

Fully compostable in municipal & industrial compost facilities where available
- ASTM D 6868 certified and compostable in commercial facilities only, which may not exist in all areas. Not suitable for backyard composting.
We reduce the use of petroleum-based materials by incorporating other materials like minerals and plant-based starches into select EarthChoice products.

We design products that may be washed and reused by consumers.

We manufacture products that include post-consumer recycled materials and actively engage in initiatives to expand recycling of foodservice packaging.

We utilize renewable resources and actively engage in initiatives to expand composting of foodservice packaging.

These guidelines are supplied to assist you in determining the proper use of Pactiv products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier's recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.
