These guidelines are supplied to assist you in determining the proper use of Pactiv products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier’s recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.

We strive to minimize packaging, petroleum based materials and energy use across the supply chain.

We are committed to using post-consumer recycled materials, where available to produce new products.

We are actively engaged in projects to increase the recycling of all foodservice packaging into new manufactured products.

We utilize renewable and compostable resources.
