Versa2Go™ Microwaveable Containers
Polypropylene

Featuring a unique matte finish, these leak resistant containers are a sustainable solution for all your delivery and take out needs! And for leftovers, these containers easily go from refrigerator to microwave to dishwasher for multi-purpose use!
These guidelines are supplied to assist you in determining the proper use of Pactiv products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier’s recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.
