

Cold Drink Cups and Lids

Our customers love refreshing and thirst quenching cold drinks, we make it easy to serve them.

Leak-resistant

The inside and outside of the cup are coated with polyethylene film to help prevent seeping and minimize condensation, while the secure seams ensure beverage containment.

Take it to-go

Add one of our flat or dome lids for a leak-resistant seal that helps prevent messy spills on the road and on-the-go. Lids sold separately.

Fun stand-out prints

The printed graphics on the cup's exterior add a pop of personality to your beverages.

Cold Drink Cups and Lids

What temperature range is recommended?

Virtual Packaging Assistant

The Virtual Packaging Assistant (VPA) app can be used for all of your Foodservice Packaging Solutions! It is available for download on all Apple, Android and Windows devices.

These guidelines are supplied to assist you in determining the proper use of Pactiv Evergreen products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier's recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.
