

For Printing and Publishing Packaging...

With Reynolon® film, the choice is clear. Versatile enough to conform to virtually any shape, Reynolon® low shrink force films are ideal for wrapping thin and delicate packages such as stickers, calendars and other low-profile items. And Reynolon® film secures a package without crushing it, so there's no need for costly and unattractive chip board reinforcement.

From envelopes to calendars, manufacturers rely on Reynolon® shrink films.

Reynolon's versatile shrink properties and outstanding clarity assures you of an attractive wrap every time.

The unique shrink properties of Reynolon's biaxial films, eliminate unappealing wrinkles and gaps and offer good impact and abrasion resistance on medium profile packages.

For sparkling impact at the point-of-sale - consider it wrapped with Reynolon®.

Recommended Films...
