

For Textile Packaging...

Reynolon® and Reynolon® Plus™ films protect the value of your product and your brand.

With films tough enough to withstand the rigors of rough-and-tumble warehouse handling, rug manufacturers can be certain that their product will remain clean and the wrap intact for eye-catching retail displays.

Reynolon® 9061 and 9161 were specifically designed to wrap rugs securely without detracting from the rugs' natural beauty.

Reynolon® Shrink Films' optimum clarity and soft feel are ideal for wrapping premium bed linens. With the flexibility to create bags in a variety of shapes and sizes, Reynolon® makes costly vinyl bags unnecessary.

With highly malleable products like textiles, Reynolon® films offer the lowest available shrink force for containment without deformation.

The package memory built into our films assures that your product will retain its shape all the way to the consumer's home.

Recommended Films...
