Features

- Exceptional Temperature Endurance: Temperatures ranging from -40°F up to 400°F for 30 minutes* in conventional oven or reheat in microwave oven.
- Dual Ovenable Paperboard: Provides a cut resistant surface for food preparation, cooking, baking and serving directly on the same tray.
- Versatile: Can be stored in freezer or refrigerated without cracking or denting.
- Variety of Sizes: Allows for a variety of food applications, from family-sized pizzas to individual personal pans.
- Rounded Radius Corners: Enhance heating and reduce hot-spot areas for more even cooking in a microwave oven.
- Closure Option: Film sealable (before baking).

Benefits

* Time and temperature may vary according to oven type and food load.

Get Your Piece Of The Pie

What is Take-n-Bake Pizza? It is simply a made to order unbaked pizza that customers bake in their own home ovens. The operator does the preparation for the pizza, but the customer cooks the pizza at their convenience. Customers can refrigerate pizza for up to 24 hours or freeze pizza for up to 2 weeks.

Why Take-n-Bake? The Take-n-Bake Program allows you to offer an innovative To-Go option, without adding ovens or locations. You already have the ingredients (dough and toppings) just add the packaging. Pactiv's Pressware® Pizza Trays allow you to prepare the uncooked pizza and your customers can bake the pizza on the same tray.

There’s No Place Like Home

The home still remains the place where most of us eat our meals. So why not prepare a fresh pizza and provide your customers the opportunity to bake it in their own oven at their convenience. 76% of meals are consumed at home.

Keeping Up With The Trends

Over the last six years, the use of fresh ingredients has remained consistent between 47%* & 48%* for total daily meals. Fresh ingredients are what consumers want.

What’s For Dinner

34% of people that order food from Quick Serve Restaurants for take-out dinner meals order pizza. Are you getting your share of the Quick Serve Market?
