PLA (Polylactic Acid)

PLA is a natural plastic material called Ingeo™ which is made from plants instead of oil and is 100% annually renewable. Because PLA is a natural material, it is best used for cold applications and has a heat tolerance of 105 °F*

***Fully compostable in municipal & industrial compost facilities where available**

ASTM D 6400 certified and compostable in commercial facilities only, which may not exist in all areas. Not suitable for backyard composting.

These guidelines are supplied to assist you in determining the proper use of Pactiv products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier's recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.
