Compostable Straws
The Functional, Sustainable and Renewable Beverage Solution!

These durable high quality straws look and perform like traditional straws, but they are anything but traditional! Made from a proprietary plant-based compostable plastic which is annually renewable, these straws are perfectly paired with our compostable PLA Cold Cups.
Compostable Straws

Benefits

▶ Offers a far superior drinking experience vs paper straws
▶ Delivers like plastic, but fully compostable like paper*
▶ Individually wrapped options for sanitary straw needs
▶ Flexible and does not crack!
▶ Translucent color and contains no colorants (natural)
▶ A flex straw is available for children, health care and individuals with disabilities
▶ Can handle temperatures up to 212 degrees F – also great for hot beverages!
  ◀ Able to transport and store in warm temperatures without concern of melting
▶ Composting helps divert waste from landfills
▶ Straw meets ASTM D 6400 composting standards
▶ Wrapper meets ASTM D 6868 composting standards (where applicable)

*compostable in commercial facilities, not suited for home composting

These guidelines are supplied to assist you in determining the proper use of Pactiv products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier’s recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you.
